WCTR 2013 Poster Recognition - Your contribution ID: 3631
"Biofuels production by thermal cracking of soap from residual grease traps"

Dear Ms. Alice R. Ratton
Dear Mr. Luiz E. P. Borges

The WCTR 2013 Rio Conference sought to encourage the use of posters for presentation. This was an innovation at WCTR and was a success. We appreciate your efforts in making a poster presentation.

We have decided to recognise up to two posters per topic area for their contribution to research. In so doing we have paid special attention to form and contents of the display and to the way in-site questions were addressed. We are very pleased to inform you that your paper and poster presentation has been selected for this recognition and we congratulate you on the research and consider that it contributes valuable insights within Topic Area F: Transport, Land Use and Sustainability.

With best wishes.

Yours sincerely,

Ruth L. Steiner
